- **PolyAqual LW**, a natural emulsifier, for stable oil in water balance and sprayable texture

fresh, cooling, and effortlessly light

Rosemary 01: see the difference

why do oils go rancid?

over time, oils naturally oxidize leading to unpleasant odour, discoloration, and reduced performance

the power of Rosemary 01

a natural antioxidant that protects oils from oxidation

2.3 times more efficient than BHT
3.3 times more efficient than BHA

skin health
